

July 30, 2003

This meet has been a great opportunity for our young team to get some experience and some publicity. We have struggled to get our team started but now with some great opportunities I believe that we can grow our team. It is really neat meeting all of the kids just like myself from all over the nation. This meet provides a great opportunity to make great new friendships and make existing ones stronger. This meet is a great chance to improve your times with other excellent competitors from around the nation. But you can't get to down because it is guaranteed that there will be someone faster here. Good luck to every one.
