

Wednesday, July, 30<sup>th</sup>

Today was another big day for our team. We have three people who are swimming in individual events tonight, and a boy's 800 freestyle relay. Sara Servold started off finals with a four-second drop from this morning in her 400 i.m. we also have John Scott and Bryant Hunter, who have yet to swim, plus the relay, so we are pumped about the rest of the night.

As the meet is coming to an end, we are realizing more and more how much we will miss our seniors (SAD!). We have two boys who will be leaving soon to go to college, and this is our last meet with them. We talked about them a lot in the spring, but we still have to say how great they are to our team and how much impact they have had on us. John Scott and Matt Bellew have been on our team as far back as I can remember. It will be incredibly weird without them next year. It's so hard to even imagine practice or meets without them being there. John will be attending Auburn University, and will be swimming with them. Matt will be swimming on scholarship at Indian River Community Collage.

On a lighter note we're gonna tear it up tomorrow!!!! I (Aimee) have the 100 breaststroke and will be swimming the breaststroke leg of the 400-medley relay. I'm sooooo pumped and expect to make it back in both events!! I (Elizabeth) have a HUGE day tomorrow! First I have the 200 fly, then the relay, then the mile!!!!!!!!!! I am so excited about all of my events. Especially my mile, seeing as though I did so well in the 800. The rest of our team has a big day as well. The 100 breast is a big event for our team along with the 200 fly. And the 400-medley relay is by far our best relay...so we should finish the meet well tomorrow, and we'll update y'all then! Good luck on the last day!
