Re: Video Review Service at YMCA Nationals

Coaches,

USA Swimming will be providing a video review station for coaches and athletes at the YMCA National Championships in Greensboro. USA Swimming has provided this valuable service at the last three Short Course YMCA Nationals, as well as Olympic Trials, USA Swimming National Championships, US Open, and USA Swimming Junior National Championships.

Look for the “**VIDEO REVIEW**” banner and stop by with your athlete to watch and review video of your athletes’ races. We will have a full-field video view of all races available shortly after the event is completed. This is a change from previous years where we only taped the top six preliminary heats-this year we will have all the prelim heats available. There is no charge for this service.

We are also excited to announce that we will be piloting a wireless in-venue broadcast whereby if you have an iPad, iPhone or laptop with Wi-Fi capability you will be able to stream all races shortly after the completion of each heat directly to your electronic device. You will receive a password to access the secured site. We kindly ask that you do not give the password out to any parents attending the meet.

USA Swimming Sport Performance Consultants are also available to visit your team to deliver information to you, your staff, athletes and parents. Hundreds of clubs have already taken advantage of this service, including many of our nationally recognized clubs. Stop by our video review table to request a visit and review topics available for visits. There is no charge for this service.

Thank you,

Tom Avischious
Field Services Director
