

## Evacuation Plans

### Evacuation in case of fire

1. In case of fire, the alarm will sound. Upon hearing the alarm, the lifeguards will blow a series of ***three (3) short whistle blasts and one (1) long whistle blast*** to clear the pool of all patrons.
2. All deck level patrons should proceed to the nearest exit in one of the four (4) corners on the pool deck and proceed up the stairs and exit the building. All patrons on the concourse level should exit the nearest door and move away from the building. Lifeguards and other IU Natatorium staff will split up and direct the patrons towards the nearest exit.
3. All locker rooms and restrooms should be checked for patrons before the staff members exit the building.
4. Patrons and staff members should remain outside until the Fire Department has given the okay to re-enter the building.

### Severe Weather

1. In case of severe weather, the sirens will sound. Upon hearing the sirens, the lifeguards will blow a series of ***three (3) short whistle blasts and one (1) long whistle blast*** to clear the pool of all patrons.
2. All deck level patrons should proceed to the nearest locker room and remain there. All patrons in the Instructional Pool (IP) should use the IP locker rooms. If the locker rooms become overcrowded patrons may seek shelter in the back hallways. Patrons that are on the concourse should proceed downstairs and seek shelter in the back hallways or one of the locker rooms on deck.
3. Lifeguards and other IU Natatorium staff will split up and direct the patrons to the nearest locker room or hallway. Once the patrons are all in the safe location, the staff members should seek shelter as well and remain there until further announcement.
4. Once the severe weather has passed, all staff and patrons may exit the locker rooms and resume their activity.
